

THOREB ALERT

Know the condition of your fleet - At any time.

Real-time fleet monitoring, diagnostics and historical insight - accessible wherever you are.

Thoreb Alert gives operators a clear view of vehicle health, location, trips, warnings and connected systems from one central interface.

YOUR FLEET
IN REAL-TIME

SEE MORE
ACT EARLIER

See what’s happening in real time.

Access your fleet through any web browser and monitor vehicles in real time from your PC, laptop or tablet.

From current location and vehicle speed to active trips and system status, Thoreb Alert brings essential operational information together in one interface.

24/7 access.

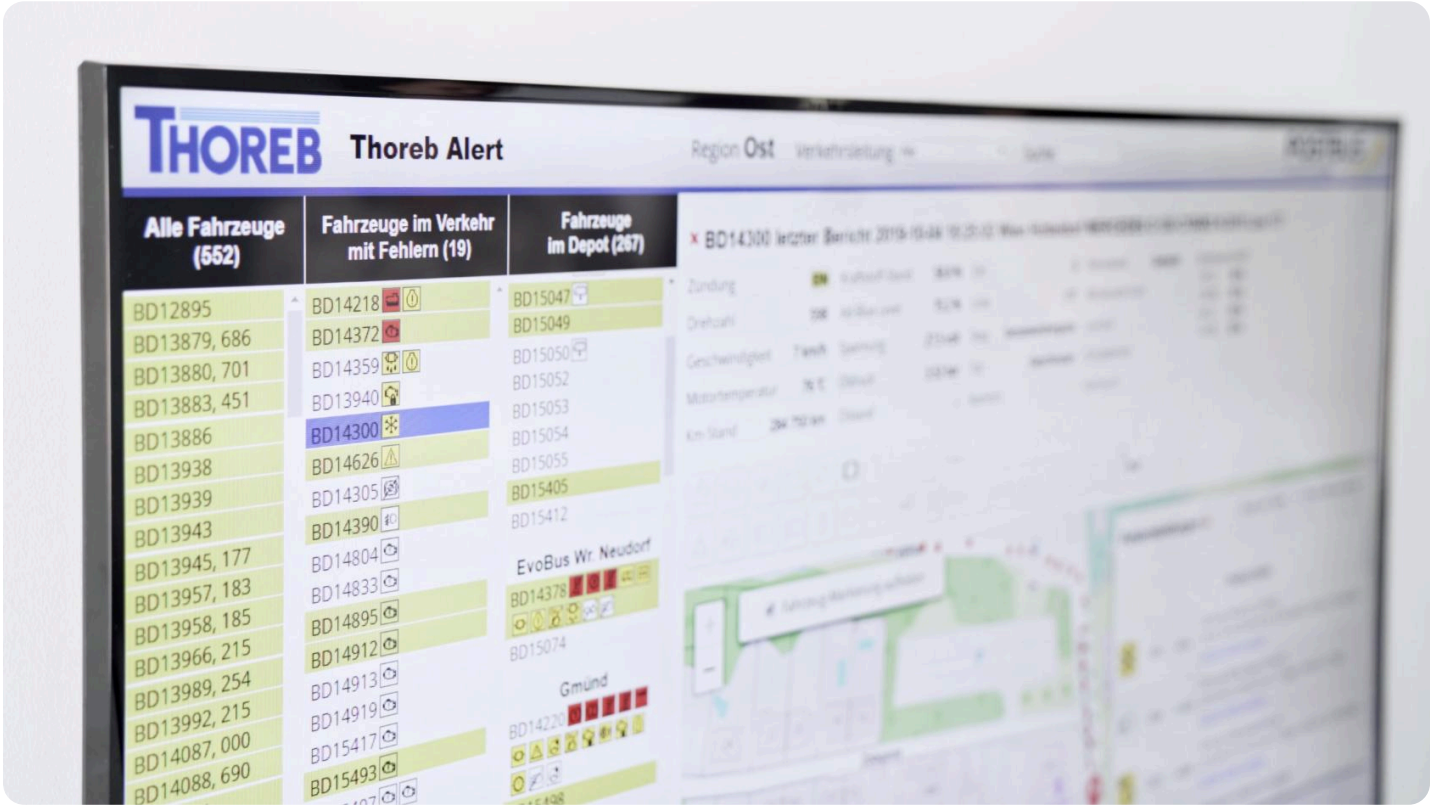

Real-time information.

One complete fleet overview.

Thoreb Alert continuously collects detailed information from the vehicle, giving operators access to more than 5,000 data points.

Monitor operating values, electronic systems, sensors, actuators and CAN diagnostic messages remotely.

Information is prioritised according to severity, helping your team identify critical issues quickly and take action before they become larger problems.

Reproduce vehicle activity
from a selected day

Navigate through
data using a timeline

Review values at
different playback speeds

Track faults and
connection losses

Review the development
of values over time

Analyse vehicle data before
and after specific events

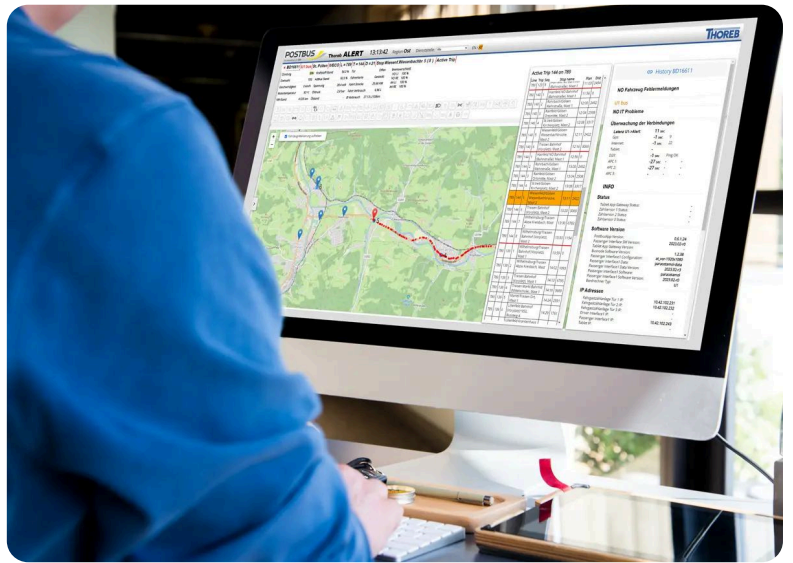

GO BACK IN TIME

Every detail. Second by second.

Thoreb History turns stored vehicle data into a timeline of past activity.

Pick any moment in time and see exactly how the vehicle and its systems were performing, second by second.

You can use it to investigate errors, connection losses, or what happened around any specific event.

SMARTER POWER MANAGEMENT

Thoreb Alert can also support power-management policies for connected equipment.

Individual units can be configured to enter specific power states depending on operational requirements — allowing equipment to remain active when background tasks are required or helping prevent unnecessary power consumption.

TURN TRIPS INTO INSIGHT

See how your vehicles really performed.

See information including:

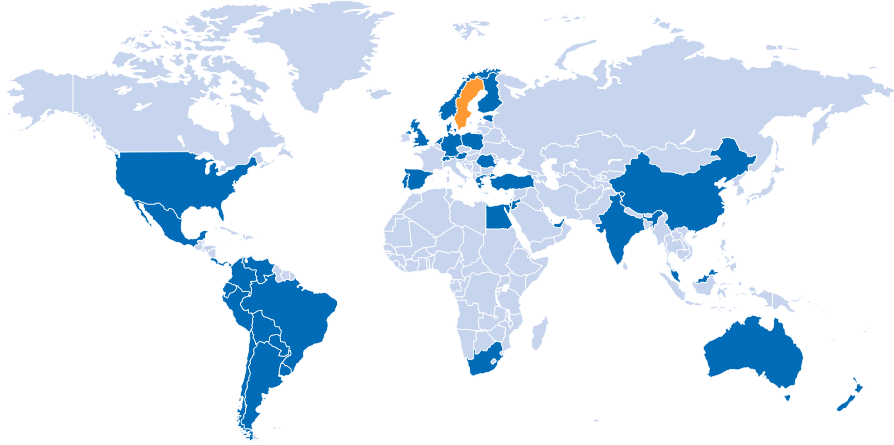

- ✓ Vehicle location
- ✓ Current speed
- ✓ Line and vehicle number
- ✓ Vehicle type
- ✓ Driver card information
- ✓ Active trip
- ✓ Upcoming stops
- ✓ Where and for how long a vehicle stopped
- ✓ Empty or non-service trips
- ✓ Timetable deviations
- ✓ Distance travelled between stops
- ✓ Passenger boarding and alighting
- ✓ Passenger boarding and alighting
- ✓ Trip times and stop information

Making public transport - attractive, efficient and safe
